If ever there's one single thing which exposes Psychiatry for being what it is, **unscientific**, it is this! **"M Theory"**, a respected Principle in Cosmology where there is an infinite number of dimensions, is simply either ignored or not considered at all in this **ANTI-science called Psychiatry!** The **'Mental Patient'** is simply accessing information/experience from another dimension(s).

**In modern-day parlance it's called channelling or simply being psychic!**

You'd think that a **Psychiatrist** would've noticed this correlation between **Mental Problems & High Achievement**
